Yousef Musabeh

MLOps Engineer • AI Software Engineer

ymusabeh.dev@gmail.com | +962 78 240 3411 | linkedin.com/in/yousef-musabeh

PROFESSIONAL SUMMARY

Skilled leader with an experience in MLOps Engineering and AI Software Engineering, proficient in developing and Deploying AI-driven solutions. Demonstrated ability in driving strategic initiatives and optimizing technical processes. Pursuing my bachelor's degree at Hussein Technical University.

KEY SKILLS

TECHNICAL SKILLS	System Design • Machine Learning • Software Engineering • MLOps • Automation • CI/CD • IaC • Terraform • Python • AWS • Linux
SOFT SKILLS	Leadership • Communication • Problem-solving • Critical Thinking • Management • Strategic Planning

PROFESSIONAL EXPERIENCE

Head of Artificial Intelligence, AuspicesAI | Feb 2023-Present

- Led AI research and development for cybersecurity, integrated AI solutions into products, stayed updated on AI advancements.
- Leveraged advanced technological skills, collaborated with teams, fostered a culture of learning, and engaged with different stakeholders
- Fueled innovation, ensured product alignment with industry needs, and cultivated a dynamic AI team, contributing to AuspicesAI's growth in the AI-driven cybersecurity solutions field.

Vice President, Cyber Security Club – HTU | Sep 2023-Present

- Shared programming knowledge with less fortunate children, conducted training sessions, and fostered a collaborative learning environment.
- Set strategic goals, organized engaging events, collaborated with members on projects, represented the club in relevant forums, and provided mentorship.
- Enhanced cybersecurity awareness within the university community, facilitated skill development among club members, and positioned the club as a hub for cybersecurity education and collaboration at HTU.

Technical Trainer, Enlighten Me Club – HTU | Dec 2022-Dec 2023

- Provided visionary leadership, organized educational events, fostered community, advocated for cybersecurity awareness, and offered guidance to club members.
- Delivered instructional sessions, explained technical concepts, and facilitated hands-on learning experiences.
- Empowered children by imparting technical skills, inspired their interest in the field, and contributed to the club's mission of providing educational support to underserved communities.

Market and Research Analyst Intern, Globitel | Dec 2022-Dec 2023

- Conducted market research, analyzed industry trends, monitored competitors, and prepared reports.
- Leveraged data-driven insights, assessed competitors' strategies, and collaborated with cross-functional teams.
- Provided valuable insights for informed decision-making, identified market opportunities and threats, and contributed to data-driven strategies and solutions at Globitel.
